

DOUBLELIN

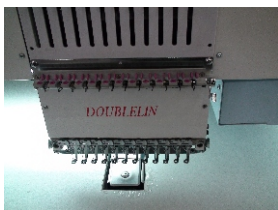

Most Advanced Cap Embroidery Machine

DLCC 全新帽绣机

DLCC using all most advanced technology of Doublelin. One machine can booth doing flat embroidery, cap embroidery, tubular embroidery and cylindrical embroidery.

DLCC机型采用了双林的最新技术,集平绣,桶状绣,成衣绣,帽绣功能于一身。

Twin cam twin driver with motor drive jumping technology, quiet and reliable. Machine use pin type take-up lever driver, the height of presser foot can be adjustable based on the thickness of fabric. 电机跳跃的双凸轮双驱动设计,宁静又可靠。自锁拨叉式挑线杆驱动方式,压脚高度可以根据所绣布料的厚度自由调节。

8.4" TFT color display control system with build-in USB port. Model A with Wi-Fi connecting and networking, max memory 2 million stitches, supporting Chinese, English, Turkish, Spanish and Portuguese language. Model B with networking, max memory 100 million stitches, supporting Chinese and English language.

8.4英寸真彩显示,带内置式USB接口。A型带无线连接和网络功能,最高内存200万针,支持中文,英文,土耳其文,西班牙文和葡萄牙文。B型带网络功能,最高内存1亿针,支持中文和英文。

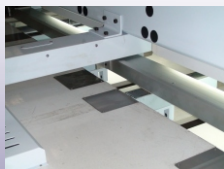

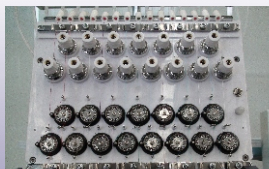

Max speed up to 1000rpm. 6/9/12/15 colors. With auto trimming system and separate motor drive upper thread hook system each head.

最高转数可达每分钟1000转。可选择6, 9, 12, 15色。自动剪线和每个机头独立式电机驱动钩线装置。

Special design super strong machine body, makes less shark even at high speed. 特殊设计规格的高强度机架,保持机器在高速运转状态下的稳定。

New tension base set with FTC and UTC in one unit, keeps each needle thread tension same and stable. The take-up spring moved to the middle thread area to let machine make wonderful embroidery jobs.

新型底线面线断线报警一体式夹线座,让每根针的线张力都保持稳定和一致。外加挑线簧中置式设计,极大地提高了绣花质量。

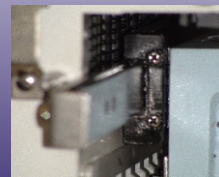

4 heads or more using middle rail on X-axis frame moving system and stronger type upper bridge base, machine runs better.

4头及以上机型采用X向驱动中导轨和加固型上梁等高箱设计,运转更稳定。

Face thread holder each head, if let thread no chance to jump out of needle eyelet while trimming. Let you get both the high quality embroidery also the fast turn.

每个机头带有面线夹持功能,防止剪线时的飞线。在精美绣花的同时又能大幅度提高生产效率。

Linear way color change, more smoothly. 换色采用直线导轨,更加顺畅。
